STANDARD NUMBERS

- 9"/23cm heat-sealed. Umbro number.
- 4"/10cm heat-sealed shorts number.

1 2 3 4 5 6 7 8 9 0

ORDER INFORMATION

NUMBERING
Heat-sealed Umbro numbers (see above). Available in: navy, white, emerald, black, silver, sky, royal, gold, yellow and red.

CLUB BADGES
If appropriate artwork is provided, bespoke club badges can be produced. Clubs are asked to provide good quality artwork to avoid poor reproduction in embroidery process.

SPONSOR'S LOGOS
Again, good quality artwork is essential. Please note that sponsor's logos cannot exceed 200cm² (as per FA regulations). As with club badges, if appropriate artwork is provided, bespoke sponsor's

logos can be produced.
HEAT-SEALED/EMBROIDERY
Heat-seal transfers are lightweight and cause no irritation next to skin garments. Embroidery on the reverse side (next to skin) can potentially cause chafing. Please make sure that you have asked permission to use any registered trademarks. Umbro cannot accept any responsibility for infringement of any third party intellectual property rights. Umbro reserves the right to refuse to print any offensive and/or unacceptable name or logo.

ARTWORK
All artwork supplied needs to be via email or supplied as digital hard copy.

The Pantone® shades of colour must also be provided where possible. Please send your completed order form and artwork to your teamwear rep listed on the next page.

CUSTOMISATION
Please ensure that lettering and numbers are correct before time of printing, as Umbro will not accept responsibility for any errors made on your behalf. Umbro is unable to provide any advice concerning decorative additions other than those it supplies and will not accept responsibility for damage or discolouration caused by the application of other decorative products applied by another source.

TRANSFERS AND BADGE CARE
Turn garment inside out and wash on a 40°C cycle to prevent abrasion and colours running during wash.

- Do not use bleaching agents, biological wash powders or spot removers on the garment – this may damage your transfer
- Do not iron – excess heat may damage your transfer
- Do not scrub the transfer
- Do not dry clean
- Do not tumble dry
